- School age children and young people - Public Health Wales
- Vaccination for students - make sure you're protected - Public Health Wales -This page includes links to the Vaccines communication toolkit for universities, the

Health protection in CYP educational settings and UKHSA Immunisation resources for educational settings Immunisation - GOV.UK.

Public Engagement Insight Reports

PHW commissioned BMG Research to offer insights and recommendations in the following report. These provide practical insights to help universities and health boards tailor communication and engagement with students to support vaccination uptake.

- Evaluation of information resources: Students summary report 2023

Brandkit

- Public Health Wales Asset Library Student vaccination campaign tile - include social media assets/reels highlighting the importance of checking immunisation status as meningitis and sepsis can be life threatening, Signs and Symptoms of meningococcal disease and preparation for university.

Charity pages

Charities also offer useful resources for young people and educational settings:

- Meningitis research foundation (MRF) - offer resources targeted at students.
    - Symptoms in young adults - Meningitis Research Foundation
    - Request printed material - Meningitis Research Foundation - Student facing information that be downloaded or ordered by Universities or Educational settings. Some of these resources are awaiting Welsh translation
    - Meningitis Now | Meningitis charity | Research and awareness
